Introduction 7

Chapter 1

A second airport for Montréal: why, where and how? 9

1.1 The rise of air transport in Montréal 9
1.2 The decision to build a new airport 10
1.3 Choosing the site 11
1.4 The Mirabel project 14
1.5 A controversial project 16
1.6 A stillborn airport 17
1.7 An unfinished project 18
1.8 Lessons to be learned 20
Bibliography 26

Chapter 2

Two decades of procrastination and decline 29

2.1 Maintaining two airports 29
2.2 Montréal's relative decline compared to Toronto 30
2.3 The advent of the Air Canada hub 1984-1988 33
2.4 Retrocession and some unsuccessful initiatives 34
2.5 The arrival of Aéroports de Montréal (ADM) in 1992 35
2.6 Status quo confirmed by ADM 36
2.7 University study recommends long-term consolidation at Mirabel 37
2.8 Lessons to be learned 38
Bibliography 42

Chapter 3

**A dramatic turn of events:
the repatriation of scheduled flights to Dorval 43**

3.1 Review of events from 1993 to 1996 43
3.2 An "open skies" agreement and Air Canada's influence 45

3.3 ADM’s decision challenged in Superior Court	48
3.4 Reactions to Judge Viau’s decision and the legal outcome.....	50
3.5 Lessons to be learned.....	52
Bibliography.....	60

Chapter 4
The consequences of transferring flights
to Dorval (1997-2004)..... 63

4.1 Passenger traffic trends.....	63
4.2 The open skies agreement and flight consolidation in Toronto!	65
4.3 The international jetty and its financing	66
4.4 Air Canada’s promises.....	69
4.5 Costs not announced in 1996.....	70
4.6 Mirabel’s fragility, the Tardif Commission and governance issues	71
4.7 Management and transparency issues at ADM	73
4.8 ADM president resigns and new governance takes shape	75
4.9 The end of passengers at Mirabel	76
4.10 Lessons to be learned.....	77
Bibliography.....	80

Chapter 5
Rail shuttle projects 83

Introduction: Why a rail shuttle?.....	83
5.1 Different types of airport rail shuttles	85
5.2 The conditions for the success of airport rail shuttles and the case of Montréal.....	85
5.3 Numerous rail shuttle projects since 2001	87
5.4 ADM’s Aerotrain	88
5.5 Caisse de dépôt’s REM.....	91
5.6 A financial disaster for ADM	92
5.7 Lessons to be learned.....	93
Bibliography.....	98

Chapter 6
Growth, capacity and the environment 101

6.1 Air traffic growth exacerbates pressure on airport capacity 101
6.2 Airport capacity 104
6.3 Capacity issues at Montréal-Trudeau 106
6.4 Runway capacity at Montréal-Trudeau 108
6.5 A comparison with London’s Heathrow airport..... 111
6.6 When will the overall annual capacity of 310,000 movements
be reached? 114
6.7 Challenges associated with these forecasts..... 118
6.8 Environmental constraints..... 118
6.9 Could the useful life of Montréal-Trudeau be extended? 119
6.10 Lessons to be learned..... 121
Bibliography..... 124

Chapter 7
The future of Montréal’s airports..... 127

7.1 The future of Montréal-Trudeau airport: financing and governance 128
7.2 Should we privatize Canadian airports? 129
7.3 Towards a new governance model 131
7.4 How to convince major Canadian airports to submit to such
regulatory mechanisms? 132
7.5 Mirabel’s future as an industrial airport..... 133
Bibliography..... 135

Conclusion..... 137
